Office Action Summary	Application No. 09/808,004	Applicant(s) MURASE ET AL.	
	Examiner Kambiz Zand	Art Unit 2132	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this section can be found in the prior office action.
2. The prior office actions are incorporated herein by reference. In particular, the observations with respect to claim language, and response to previously presented arguments.
3. Claims 11-4 and 7-10 have been amended.
4. New claims 11 and 12 have been added.
5. Claims 1-12 are pending.

Response to Arguments

6. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
- As per applicant's arguments that Scott neither teaches, discloses, nor suggests "obtaining first biological information from an owner of the recording medium in a case where it is determined that the recording medium is presented for a first time in the facility" and "obtaining second biological information from the owner of the recording medium in a case where it is determined that the recording medium is presented at second and later time in the facility" see page 9 and 10 of applicant's response filed on 09/15/2005, examiner makes the following remarks:

(a) The above limitations disclose biological information is being obtained regardless if the recording medium is presented for the first time or the second time. That is a biological sample is being obtained every time the recording medium is presented.

Scott et al (6,484,260) does disclose the biometric sample that corresponds to applicant's biological information being obtained by the biometric sensor system capable of sensing the biometric trait of the user when such personal identification device that corresponds to applicant's recording medium is presented (see col.1, lines 46-60); col.5, lines 4-15 disclose such biometric sample not necessary being stored in advance contrary to applicant's arguments on page 9 of the response filed on 09/15/2005.

Therefore Scott is disclosing the process of obtaining biometric sample of personal identification device of provider of such device. A repeat of such process is not inventive step.

(b) With respect to new claim 11 please see (a).

(c) With respect to claim 12 Scott does disclose the comparison of the biometric samples in order to verify authenticity of the samples (see col.10, lines 22-29).

- Examiner suggests Applicants to request an interview with examiner if necessary in order to expedite the process of the prosecution. Examiner would reconsider his rejection of claims 9-10; 1-8 of the present applications if presented in the

proper language that distinguishes it over prior art of the records and in a manner to overcome 112 rejections or possible 101 rejections in harmony with the specification respectively.

New claims 11 and 12 are too broad as far as claim language is concern.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

8. **Claims 1-8 and 11-12** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- In claims 1-8 and 11-12, the “recording medium” phrase makes the claims indefinite and unclear since page 2, line 26 of the specification refers to the “recording medium” as a ticket. Examiner suggests applicant to submit the phrase “a computer readable recording medium” or “ a computer implemented recording medium” as replacement. Examiner also suggest if examiner above suggestion not acceptable to applicant, then amend the claims so the computer implemented process be clear in the body of the claim in a manner that discloses applicant’s invention being a computer implemented process and therefore tangible.

- Examiner would issue a 101 rejection of the above claims if applicant's claims are not clarify with respect to the above suggestion.

Claim Rejections - 35 USC § 102 & 103

9. As with respect to claims 1-10, Please see the last office action in view of the above and prior arguments since the added limitation to the claims filed on 09/15/2005 only is re-write of the limitations omitted in the claims.
10. As with respect to claims 11 and 12, since the limitations of claims 11 and 12 are already present in the independent claims of 1, 4, 7, 8 and 10 and therefore rejected accordingly.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2132

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
